BRAHMA3 STUDIO / EXHIBITS AND EXPERIENCES

Built to be seen.

Full-size replicas, showpieces, scale models and digital experiences.
Engineered from your CAD. Built in Bengaluru, delivered worldwide,
timed to your event.

BRAHMA3.COM/EXHIBITS

Exhibits that do the explaining.

When a product is too large to ship, still in development or hidden inside a machine, we build the version people can walk around, touch and understand.

01 Full-size replicas

Engines, machines and systems at 1:1, accurate to the engineering.

02 Showpieces

Sculptural builds that stop people at the stand.

03 Component replicas

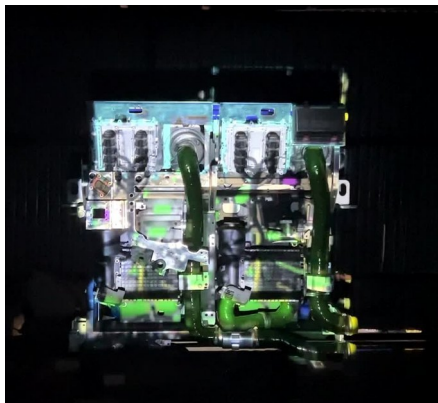

Parts and assemblies, made to be handled and explained.

04 Scale models and mementos

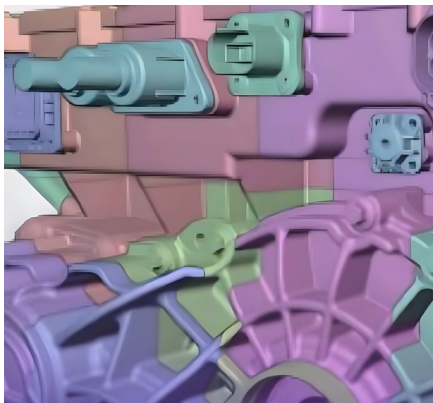

Desk-size models in machined aluminium and resin, for gifts and launches.

The exhibit, brought to life.

05 Projection mapping

Light and motion mapped onto the exhibit, so the product shows how it works.

06 360-degree web view

Your product online in 3D, optimised from CAD to run in any browser.

07 Photoreal renders

Studio-quality images from your CAD for posters, screens and launches.

03 HOW WE WORK

From CAD to the stand.

01 Engineer

We start from your CAD and choose the right process for every part.

02 Make

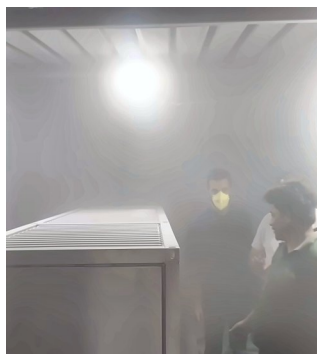

Machining, fabrication, 3D printing and hand finishing, with 40+ partner facilities.

03 Finish

Paint and detail matched to the real product, inspected before dispatch.

04 Deliver

Engineered crating and installation, with delivery worldwide, planned to your event date.

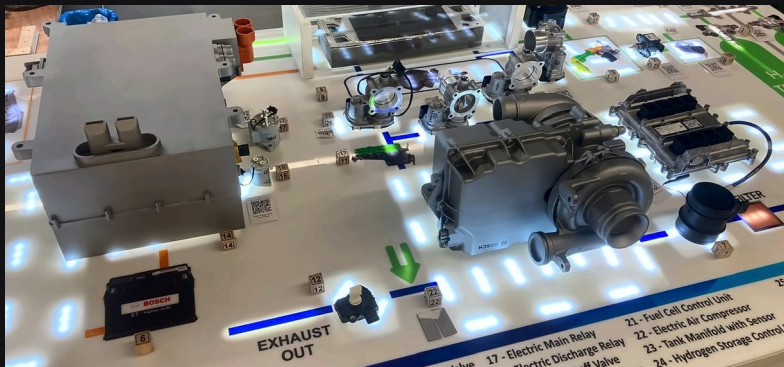

Trusted by engineering leaders.

CLIENTS INCLUDE BOSCH, ENVISION, HELLA, MERITOR, DYNAMIC TECHNOLOGIES AND INDIAN RAILWAYS

ENVISION BATTERY ENERGY STORAGE SYSTEM, 1:1, FOR AN INDUSTRY EVENT

BOSCH FUEL CELL VEHICLE LAYOUT WITH COMPONENT REPLICAS

BOSCH HYDROGEN FUEL CELL ENGINE, 1:1

10+

years of additive manufacturing in India

2300+

prototypes developed

40+

partner facilities

"We have had a very dependable association with Brahma3 over the last 10 years on developing industrial prototypes and assemblies. Their involvement, insights and value-adds have gone a long way in executing projects to our requirements."

TECHNICAL SPECIALIST AND TEAM LEAD, BOSCH

Let's build your next exhibit.

Tell us the product, the event and the date. We deliver worldwide and plan the build to your timeline.
